Need help?

PREPARING THE ROBOT

- 1 Make sure the robot is fully charged, before using it for the first time.

Usually around 8 to 10 hours of charging would be enough.

- 2 Remove the robot from the docking station (charger).

Need help?

PREPARING THE ROBOT

3 Place the robot close to your router.

4 Make sure the on/off switch is set to 'on'. This is the switch on the side of the robot. Wait until the robot has started fully.

It is not possible to register the robot in the app while it is physically in the docking station

Need help?

APP : INSTALLATION

- 5 Download the app for your specific robot.
(BluebotXS PLUS app)

- 6 Make sure your phone is connected to the Wi-Fi network.

*Please note that the XEasy robot
only works on a frequency of 2.4
GHz.*
